<b>Landscape</b>	Designations (e.g. Area of Outstanding Natural Beauty (AONB))	None within the Parish
	Character	Gently undulating landform with medium scale, irregular field pattern and pasture fields bounded by hedgerows and fences. Existing village edge mostly softened by woodland and hedgerows. Moderate condition due to some loss of hedgerows in the area and modern development around Field House Farm.
	Sensitivity	CF5 - High
	Landscape Capacity	Although there is moderate landscape character sensitivity, some landscape features and qualities are sensitive to development. The moderate landscape value and high visual sensitivity of the area results in an assessment of No/Low landscape capacity for small-scale housing development. Any development could easily be perceived as an incursion into open countryside unrelated to the current settlement boundaries.
